**STAKING OF LOTS/RE-INSPECTIONS**

On all new construction (including additions), the City requires the developer to have the parcel of land staked prior to beginning work to aid in the inspection process. Re-inspection fees may be applicable if contractor/owner requests inspection and work is not ready for inspection. If it is determined that re-inspection fees are necessary they will be borne by the contractor/owner.

**FLOODPLAIN REGULATIONS (if applicable)**

If property is located in *Flood Boundary District*, then a *Flood Plain Development Permit Application* must be completed at the time application for building permit is made. NO CONSTRUCTION can begin until City can be assured that Flood Plain Regulations have been complied with. If the area is located within the *Floodway Hazard Area*, NO CONSTRUCTION can be permitted without engineer’s certificate that it will have no affect on the flood elevations. Proof of cost of improvement may be required when requesting permit to construct within the flood boundary district.

**DISCLAIMER**

City Staff is only authorized by the City to assist in issuance of building permits, and are not licensed engineers or surveyors. The City of Ellis disclaims any responsibility for any errors or omissions concerning the survey of you property or adjoining property. It is recommended that you contact a licensed engineer or surveyor if you wish to have your property surveyed.

**VALIDITY**

The issuance or granting of a permit or approval of plans and specifications shall not be construed to permit for, or an approval of any violation of any of the provisions of the International Building Code or any ordinance of the City. No permit presuming to give the authority to violate or cancel the provisions of the code shall be valid.

**EXPIRATION**

An application for a permit for any proposed work shall be deemed to have been abandoned 180 days after the date of filing. If such application has been pursued in good faith, the building official is authorized to grant one or more extensions of time for additional periods not exceeding 90 days each. Each extension shall be requested in writing, with the basis for the request detailed within the request. The extension is subject to additional fees.
